

Metro Tram™ Trailer

The American made Metro Trailer is a heavy-duty, low-floor tram trailer built to transport up to 28 passengers. When several are hooked up together, towed by a Power Car or Tug, passenger capacity can range from 28 passengers to 84 passengers. Metro Trailers include four way steering for tight tracking and great maneuverability, as well as an attractive body design to be cosmetically pleasing. These trailers are built with high performance material and craftsmanship to withstand daily usage.

The Metro trailers are available with a variety of optional equipment including ADA wheelchair accessibility, custom paint and graphics, audio/video systems, roadside closure bars, luggage/storage racks, rain curtains and more. The Metro trailer is ideally pulled by the Metro power car or tow-tractor.

Tug & Metro Trailer
