

# Atlas Tram Trailer

The American made Atlas Tram Trailer has a clean and simple design and is a great solution for transporting guests. This low-floor tram trailer seats up to 28-passengers and is built with high quality materials ensuring good durability for heavy, daily use. Despite its toughness, the Atlas Tram Trailer features a light body, with an anticorrosive design and an affordable price tag. Designed to be used in many different types of locations, the trailer can be towed by a large variety of equipment, including trucks, SUV's and tow tugs, making it flexible for whatever application is needed. The Atlas Tram Trailer is the perfect addition to your people moving fleet!
